PROFESSIONAL SUMMARY

Digital Enterprise Management professional with experience coordinating content workflows, managing digital platforms, supporting website projects, and developing audience-focused communications. Skilled in project coordination, stakeholder communication, content scheduling, website management, email marketing, analytics, and AI-assisted content production.

EXPERIENCE

Digital Marketing & Communications Specialist | Children First Canada|

June 2026 – Present

- Manage recurring digital content planning and publishing workflows through Loomly, coordinating posts and deliverables to maintain consistent communications and manage multiple priorities and deadlines.
- Support website redesign and content updates in WordPress, improving page structure, presentation, navigation, and digital content organization.
- Create branded digital assets and campaign materials using Canva while maintaining consistent visual and messaging standards.
- Develop and distribute email newsletters through Mailchimp, supporting audience communications and campaign outreach.

VOLUNTEER

AI Video Content Intern | Coaching & Sales Institute

May 2026 – August 2026

- Managed project tasks, deliverables, and sprint deadlines in Asana, tracking progress and maintaining accountability across internship projects.
- Designed the user interface for Coach P.E.R.I., an AI-powered app that enables sales leaders to improve their pitches through real-time, back-and-forth conversation.
- Developed AI-assisted video and visual content supporting personal branding, LinkedIn communications, and digital marketing initiatives using OpenArt, ElevenLabs, OpusClip, and CapCut.
- Coordinated content development from research through execution, developing LinkedIn content aligned with brand positioning, audience interests, and lead-generation objectives.
- Supported website and mobile design projects by testing mockups, iterating on visual elements, and incorporating project feedback.

- Contributed to the development of the Coach P.E.R.I. brand identity, helping establish a consistent visual direction across digital content and product concepts.

Marketing Project Coordinator | Life Is A Special Event | Client: The Aging Games (400K+ Followers)

June 2025 – September 2025

- Coordinated weekly project meetings and deliverables using Google Workspace, developing agendas, documenting action items, and tracking follow-ups to maintain alignment on scope, responsibilities, and deadlines.
- Managed end-to-end project workflows for digital content, coordinating deliverables, publishing schedules, and dependencies using Meta Business Suite and Metricool to ensure timely execution.
- Tracked project and campaign performance, analyzing metrics and A/B testing results through Metricool and Meta Business Suite and preparing stakeholder reports to support project decisions and optimization.
- Coordinated content deliverables from planning through publication, using Sync to organize tasks, monitor progress, and maintain accountability across project timelines.
- Created a high-performing organic post that was reposted by actress Jamie Lee Curtis, increasing reach and visibility.
